B & B Series

The B & B Series is Vogler's board and batten metal siding: a concealed-fastener vertical wall panel that alternates wide flat boards with narrow raised battens, 2" wide and ¾" deep, for the classic board-and-batten look in a prefinished metal panel that never needs paint. 12" or 16" panel widths keep trim offsets minimal. Built for commercial, multifamily and residential exterior walls in Houston and Texas. 24 gauge steel or .032 aluminum with a Kynar PVDF finish; Miami-Dade Notice of Acceptance for high-wind areas. Comparable to PAC-CLAD Board and Batten, fabricated and installed by Vogler Sheet Metal.

PRODUCT DETAILS

Profile	Vertical board and batten, 2" x ¾" raised batten
Coverage	12 · 16"
Depth	¾" batten
Materials	24 ga steel · .032 alum
Uses	Wall (vertical), commercial and residential
Ratings	Miami-Dade NOA
