FW150

FW150 is a flat, concealed-fastener metal wall panel with 12" coverage that delivers clean, modern lines on commercial exterior walls, soffits, fascia and screen walls across Houston and Texas. Sharp transitions and a smooth face make it a go-to metal siding panel for contemporary storefronts and office buildings. Options include a vented version, vee-grooves, striations or stucco embossing, and an optional seam-lock for high-wind zones. Tested to ASTM E1592 and E283, ICC-ES ESR-4712, Texas Department of Insurance listed. 22 and 24 gauge steel or .032 and .040 aluminum in 30-plus colors. Comparable to Berridge FW-12, fabricated and installed by Vogler Sheet Metal.
