Snap Tite

Snap Tite is Vogler's snap-lock standing seam metal roof panel: a 1¾" seam with a continuous interlock that snaps together on the roof with no field seaming machine, which makes it the fast-install choice for commercial roofs, mansards and metal fascia in Houston and Texas. Concealed clips give it UL 90 wind uplift performance on slopes of 2:12 and up. Available in 22 and 24 gauge steel, .032 and .040 aluminum, and copper, with a 35-year Kynar PVDF finish in standard, metallic and premium colors. Florida HVHZ and Texas Department of Insurance approved. Comparable to PAC-CLAD Snap-Clad, fabricated and installed by Vogler Sheet Metal.

PRODUCT DETAILS

Seam	1¾" · continuous interlock
Attachment	Snap-lock, concealed clip (high-performance clip for UL 90)
Min. slope	2:12
Widths	12 · 16 · 18" (confirm with Vogler)
