VSM CC

VSM CC metal column covers wrap interior and exterior structural columns and beams in round or square covers custom-fabricated by Vogler Sheet Metal in Houston. Choose aluminum, anodized aluminum, aluminum composite, stainless steel or copper, and one of three joint styles: a flush joint with hairline seam using rivnut or keyhole attachment, a caulked vertical reveal, or a reveal joint with a metal channel filler. Finished in standard or custom Kynar colors or anodized to match the rest of the building envelope. Comparable to PAC-CLAD column covers.
