WV 12

WV 12 is a 12"-coverage metal wall panel with a wide, flat ⅞" rib and a 2" reveal, stucco-embossed as standard for a textured face that hides oil canning and adds depth to commercial exteriors. Concealed fasteners and interlocking edges install horizontally or vertically over open framing or solid sheathing, so it works as metal siding, soffit, fascia, screen wall or fencing on projects throughout Houston and Texas. 22 and 24 gauge steel or .032 aluminum in 34 colors, smooth finish optional. Tested to ASTM E1592 and E283, Florida product approved, Texas Department of Insurance listed, ICC-ES ESR-4712. Comparable to Berridge HS-12, fabricated and installed by Vogler Sheet Metal.
